

F. Accountability and Audit

- f.1 The Board is primarily accountable to the stockholders. It should provide them with a balanced and comprehensible assessment of the corporation's performance, position and prospects on a quarterly basis, including interim and other reports that could adversely affect its business, as well as reports to regulators that are required by law.

Thus, it is essential that Management provide all members of the Board with accurate and timely information that would enable the Board to comply with its responsibilities to the stockholders.

Management should formulate, under the supervision of the Audit Committee, the rules and procedures on financial reporting and internal control in accordance with the following guidelines:

- (i) The extent of its responsibility in the preparation of the financial statements of the corporation, with the corresponding delineation of the responsibilities that pertain to the external auditor, should be clearly explained;
- (ii) An effective system of internal control that will ensure the integrity of the financial reports and protection of the assets of the corporation for the benefit of all **stockholders and other stakeholders**;
- (iii) On the basis of the approved audit plans, internal audit examinations should cover, at the minimum, the evaluation of the adequacy and effectiveness of controls that cover the corporation's governance, operations and information systems, including the reliability and integrity of financial and operational information, effectiveness and efficiency of operations, protection of assets, and compliance with contracts, laws, rules and regulations;
- (iv) The corporation should consistently comply with the financial reporting requirements of the SEC and the IC;
- (v) The external auditor should be rotated or changed every five (5) years or earlier, or the signing partner of the external auditing firm assigned to the corporation, should be changed with the same frequency. The Internal Auditor should submit to the Audit Committee and Management an annual report on the internal audit department's activities, responsibilities

and performance relative to the audit plans and strategies as approved by the Audit Committee. The annual report should include significant risk exposures, control issues and such other matters as may be needed or requested by the Board and Management. The Internal Auditor should certify that he conducts his activities in accordance with the International Standards on the Professional Practice of Internal Auditing. If he does not, he shall disclose to the Board and Management the reasons why he has not fully complied with the said standards.

- f.2. The Board, after consultations with the Audit Committee, shall recommend to the stockholders an external auditor duly accredited by the SEC and the IC who shall undertake an independent audit of the corporation, and shall provide an objective assurance on the manner by which the financial statements shall be prepared and presented to the stockholders. The external auditor shall not, at the same time, provide internal audit services to the corporation. Non-audit work may be given to the external auditor, provided it does not conflict with his duties as an independent auditor, or does not pose a threat to his independence.

If the external auditor resigns, is dismissed or ceases to perform his services, the reason/s for and the date of effectivity of such action shall be reported in the corporation's annual and current reports. The report shall include a discussion of any disagreement between him and the corporation on accounting principles or practices, financial disclosures or audit procedures which the former auditor and the corporation failed to resolve satisfactorily. A preliminary copy of the said report shall be given by the corporation to the external auditor before its submission.

If the external auditor believes that any statement made in an annual report, information statement or any report filed with the SEC or any regulatory body during the period of his engagement is incorrect or incomplete, he shall give his comments or views on the matter in the said reports.

- f.3 Related Party Transactions

Overlapping interests in the company shall be disclosed to the Board and any material transaction involving such interests shall be similarly disclosed. Related party transactions shall be disclosed fully to the board. Prior Board approval shall be obtained for related party transactions.

Related party transactions shall be conducted in terms that are at least comparable to normal commercial practices to safeguard the best interest of the Corporation, its stockholders, creditors, policyholders and claimants.
