1. Context

In March 2015, the UNEP FI Principles for Sustainable Insurance (PSI) Initiative launched the “United for disaster resilience” statement at the 3rd UN World Conference on Disaster Risk Reduction in Sendai, Japan. The statement outlines the roles of the insurance industry—as risk managers, risk carriers and institutional investors—in helping implement the Sendai Framework for Disaster Risk Reduction 2015-2030.

In Sendai, the PSI announced a separate initiative, calling on insurance and stakeholder organisations to exercise leadership by voluntarily making specific, measurable and time-bound commitments. The aim is to show concrete actions that build disaster-resilient communities and economies, and promote economic, social and environmental sustainability.

This second PSI initiative raises the insurance industry’s level of ambition in building disaster resilience and promoting sustainable development. 2015 offers an unprecedented opportunity to shape a sustainable future for all as government leaders, business and civil society make long-term commitments on disaster risk reduction (March), financing for development (July), the Sustainable Development Goals through to 2030 (September) and climate change (December).

2. Make a commitment

Any insurance organisation, or any organisation that works with the insurance industry, is welcome to make a voluntary commitment. Any authorised signatory can make the commitment.

Below is a list of possible commitments. It is not a definitive list. These commitments are grouped based on the four Principles for Sustainable Insurance, which are structured according to the spheres of influence of an insurance company. You can make a commitment that is not on the list.

To make a voluntary commitment, please complete this form and send it to psi-commitments@unepfi.org.

The UNEP FI Principles for Sustainable Insurance
A global sustainability framework and initiative of the United Nations Environment Programme Finance Initiative
3. Promoting your commitments

Your commitments will be promoted through the PSI website, PSI and UNEP FI communications, and key events such as but not limited to:

- The UNEP-Swiss Re Roundtable on “Insurance 2030: Policies and partnerships for sustainable development”
- The Climate Finance Day
- The Global Insurance Forum of the International Insurance Society
- The UNEP FI Annual General Meeting
- Various UN, PSI, UNEP FI, insurance industry and financial sector events

4. The commitments

Note: Only the categories of commitment made by your organisation will be publicly disclosed and promoted. The details, figures and timeframe of your specific commitments will NOT be disclosed. Figures and timeframes measuring individual organisations’ commitments may be aggregated, and these aggregates may be publicly disclosed and promoted to show the insurance industry’s widespread action.

Examples of how information can be publicly disclosed on the PSI website and promoted:

Example 1: Recognising individual organisations based on category of commitment

Category of voluntary commitment:
- Conduct research on disaster risk reduction and climate change adaptation and mitigation

Organisations that have made this commitment:
- ABC insurance or reinsurance company
- DEF insurance or reinsurance agent or broker
- GHI insurance or reinsurance association, federation or institute
- JKL insurance regulator or supervisor

Example 2: Aggregating figures to show the insurance industry’s widespread action

Category of commitment:
- Increase insurance products and capacity for climate and disaster risk

[XX] organisations have made this commitment, with a total of [YY] of insurance products and a total of [ZZ] in insurance capacity.
**Principle 1:** We will embed in our decision-making environmental, social and governance issues relevant to our insurance business.

<tr>
<td>3.1 Support prudential policy, regulatory and legal frameworks that promote disaster risk reduction, climate change adaptation and mitigation, and improve access to insurance</td>
<td>The Company, National Reinsurance Corporation of the Philippines, is actively supporting and promoting the creation of the Philippine Catastrophe Insurance Pool (PCIP). The PCIP is a joint effort of the Philippine Bureau of Treasury, Insurance Commission, in coordination with the International Finance Corporation (IFC-World Bank) and Philippine Insurers and Reinsurers Association (PIRA) where NRCP’s President/ CEO is a Deputy Chairman, Trustee and member of the Cat Pool Committee. It aims to reduce poverty in the country through disaster risk finance and insurance for individuals, families and small-medium enterprises (SMEs). Under the proposed structure, the PCIP will underwrite catastrophe insurance policies for homeowners and SMEs.</td>
<td>Milestone of this initiative is the issuance of an Executive Order by the President of the Philippines, mandating the compulsory coverage for the catastrophe insurance of homeowners and SMEs and issuance of cover will be done through the PCIP.</td>
<td>PIRA together with the other organizations championing the PCIP is hopeful that an Executive Order will be signed by the President of the Philippines before his term ends in 2016.</td>
</tr>

<tr>
<td>4.1 Assess, measure and monitor your company’s management of climate and disaster risk in its insurance and investment portfolios and proactively and regularly disclose this information publicly</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>4.2 Participate in relevant disclosure or reporting frameworks that measure climate and disaster risk in insurance and investment portfolios (e.g. disclosure frameworks on climate risk, carbon footprint (e.g. via the Montreal Carbon Pledge) and sustainability)</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>4.3 Disclose the resilience of your company’s insurance and investment portfolios to climate and disaster risk (e.g. environmental risk stress tests)</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>4.4 Dialogue with clients, regulators, rating agencies and other stakeholders to gain mutual understanding on the value of disclosing climate and disaster risk</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

---

**Optional**

Any remarks or additional information about your commitment/s:

Our commitment will focus mainly on the two areas provided below:

2.3 **Provide risk management tools for clients and suppliers to reduce climate and disaster risk**

3.2 **Create partnerships with governments, the financial and business community and civil society to promote disaster risk reduction, climate change adaptation and mitigation, and develop insurance solutions**
Thank you for your commitment to disaster resilience and sustainable development.
